

Pins & Buttons

YOU CHOOSE, WE CREATE

About Us...

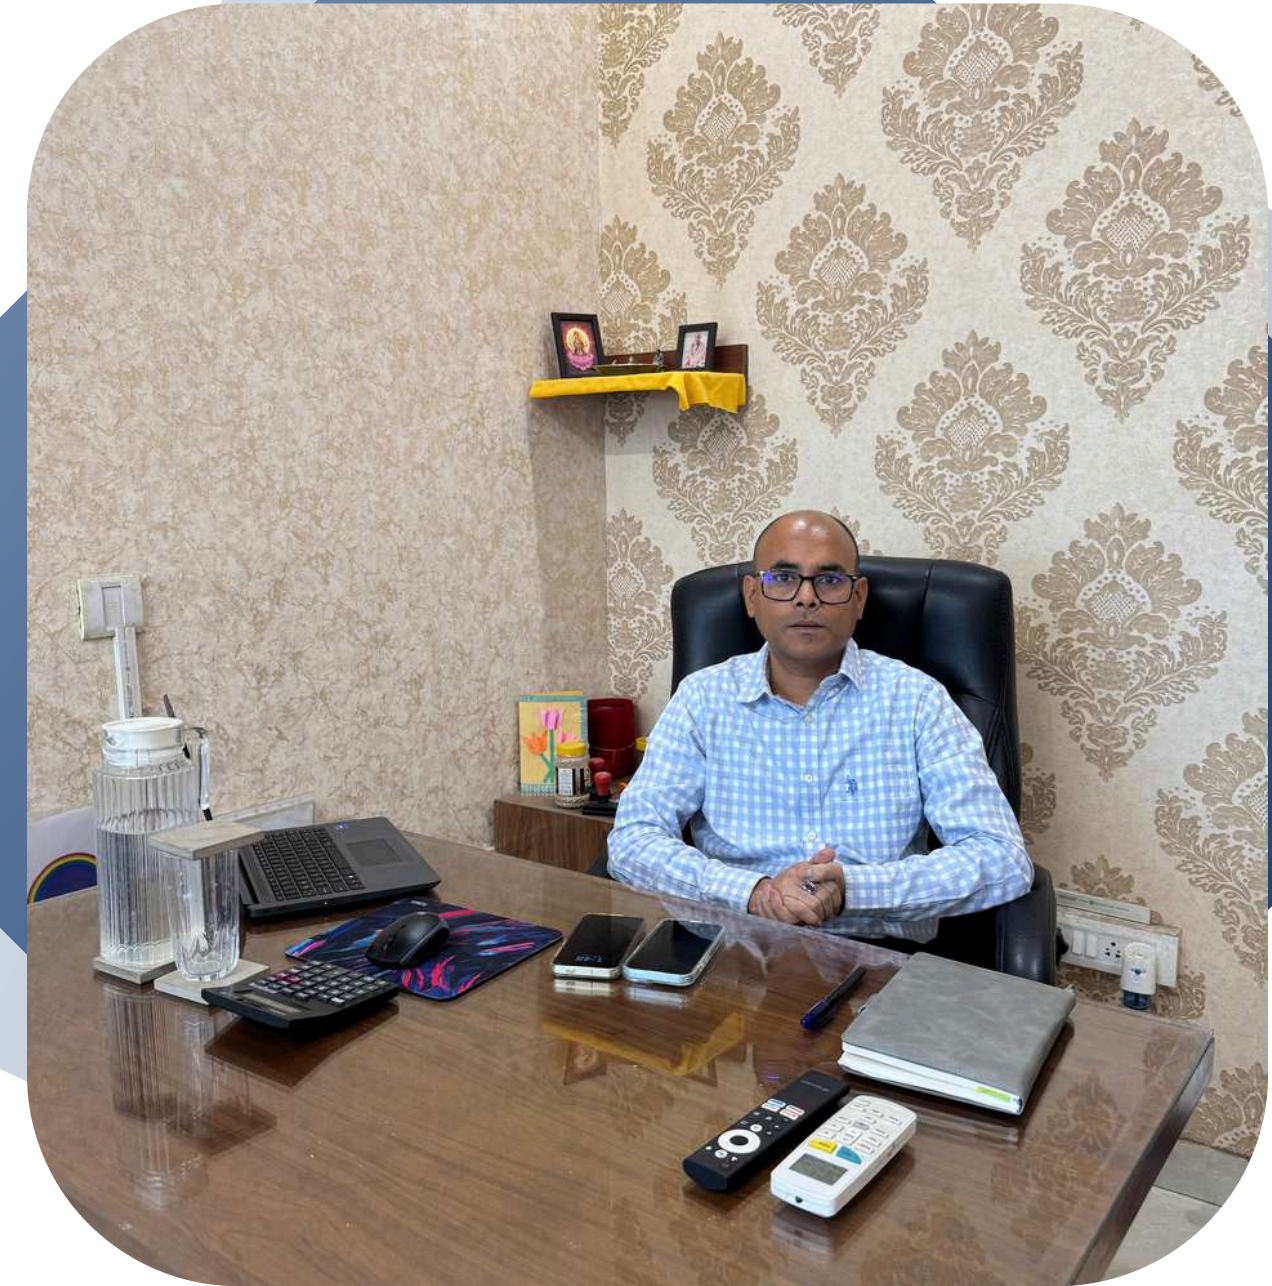

Pins And Buttons is a supplier of Domestic and export, as well as a manufacturer who deals in Apparel, Knitted Fabrics (Organic & Regular) and was established in 2022.

Our team has been in this trade for years and understands the basic requirements of each segment of the Domestic and International Market, and their social responsibility strives hard to provide the best of services and quality. We take pride in efficiency of what we do and always work on the most effective and latest technology available. We believe in putting our efforts together as a team which in turn optimizes tremendous momentum and fortifies the course of our action.

We at **Pins And Buttons** believe in maintaining a perpetual relationship with our Counterparts, providing comfort level in various aspects of work transactions and proceedings. The working aura and transparency between us, give them the air of their own Liaison Office, and our close monitoring of the progress of their orders, diligent attention, and communication make it more viable.

The Scope of our customers towards us makes us feel more vigilant and vigorous as we are being promoted wholeheartedly by them.

Mr. Anoop Naithani
CEO & Founder

Our Mission and Vision

OUR AIM

We have established Pins And Buttons with the sole aim of presenting the perfect blend of tradition & talent through our wide range of products.

OUR GOAL

We work upon the logic that “success can be achieved overnight, but not retained”, therefore we have established Pins And Buttons with the goal of “steady growth”, which can only be achieved through an ethical business approach and structure.

OUR COAL VALUES

Specialty is committed to leading in the "next generation" of technology. We are well-positioned to drive growth for the future with technical excellence in each business by developing a global technical capability, increasing new product growth, and investing in global research.

WHY US?

- We have a vertical Unit in Which We have Fabric Manufacturing (Organic & Regular) and Garment Production As well
- We make time bond commitments.
- We have an in-house QA team that carries out all the required inspections including fabric checking, inline inspection of goods on the machine, and finished goods.
- This cross-functional approach provides a structured and reliable framework that delivers consistently and accurately.
- We have Design and Product development on board to provide value-added novelty items that involve innovative processes to create new and fresh products for every season in line with Domestic and International Trends
- Buyers minimize their business risk when they buy from us as we have our own manufacturing unit for regular control over quality during the production process and ensure coordination with our buyers for on-time delivery.
- For facilities not in-house we identify vendors, negotiate rates, check the in-process quality perform pre-shipment inspection, and many other functions on behalf of the buyer.

What We Do...

Pins And Buttons acts as a responsible sourcing agent and manufacturer of White labeled Garments. The work process and commitment to delivering quality products & services of the company make it responsible for:

- ▶ Arranging the best Quality Clothes meeting your requirement
- ▶ Sampling of Merchandise to specifications
- ▶ Controlling / Monitoring raw material
- ▶ Negotiating best prices from reputed suppliers
- ▶ Regular production updates to buyer
- ▶ Quality assurance & inspection of goods
- ▶ Timely deliveries and best freight rates
- ▶ Regular production/order processing updates

MERCHANDISING DEPARTMENT

QUALITY ASSURANCE TEAM

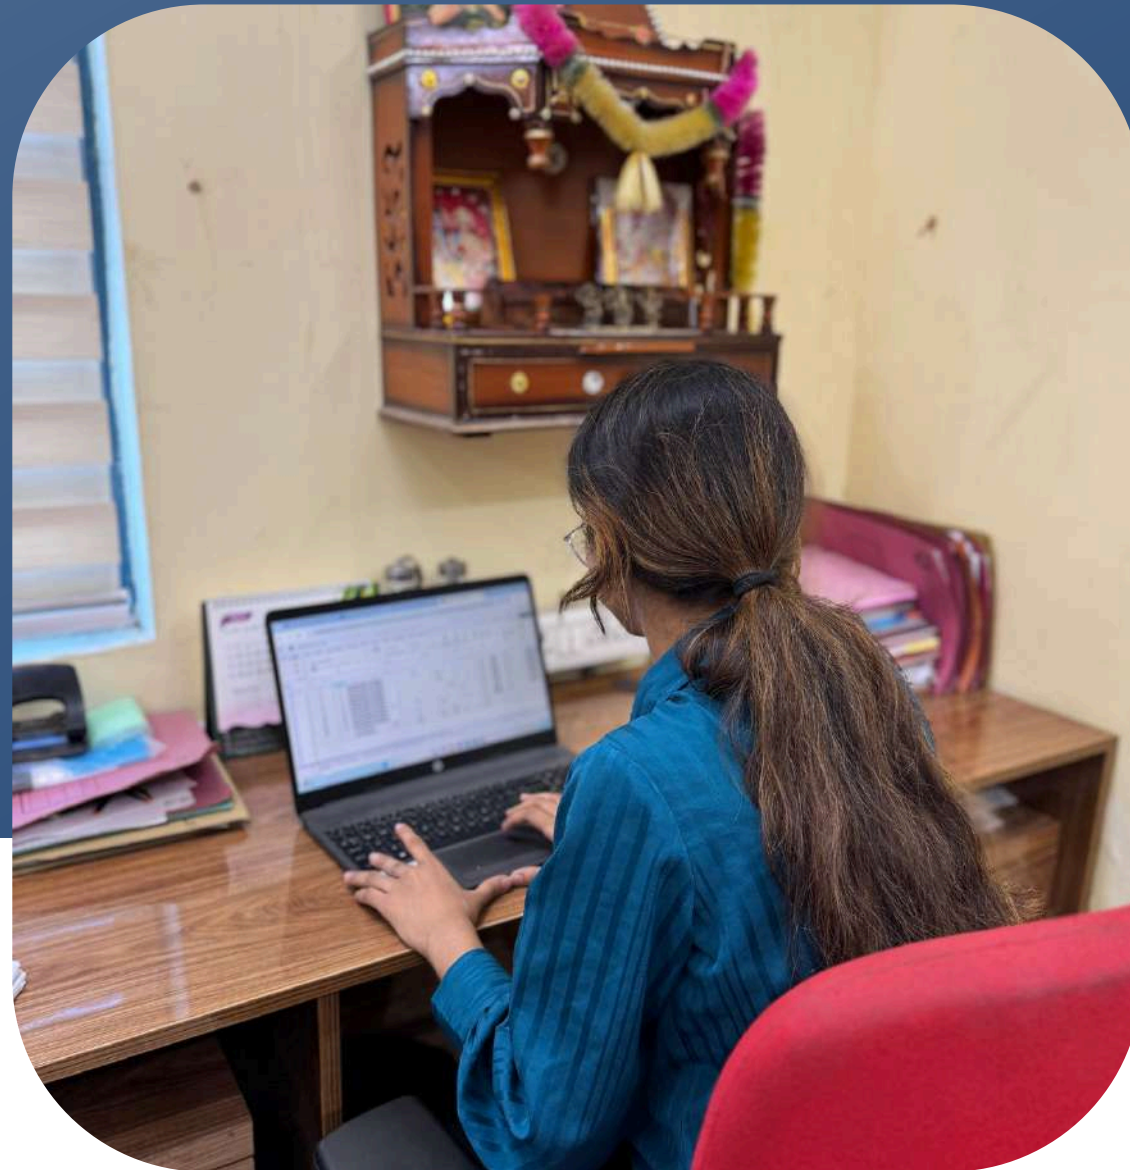

Quality Control

To be able to control the quality of the merchandise produced by its vendors, we have a proper channel for quality control. This helps judge the quality level of the produced goods by identifying and categorizing the defects. It enables the QC to decide if the merchandise passes the acceptability norms of the client. We believe that quality control exercise must be simultaneous to production and is not a terminal exercise for this reason we monitor the quality at each stage of production in all respects. Above all, we cannot control quality but can render our services to assure best quality.
